General Information

Any individual, partnership, corporation, or profession engaged in a business in Prince William County or engaged in leasing equipment which is used by a business or profession in Prince William County must complete this form.

To avoid a late filing penalty of 10%, a filing form must be postmarked or returned by [APRIL 15, 2026](#).

Please correct the preprinted information on the return as necessary.

A separate form should be submitted for each business location.

Leasing companies must file a return in their own name. Items being leased can be consolidated on a single return as long as the detailed listing identifies the lessee and location address of the equipment.

Do not use this form to report licensed motor vehicles, trailers, boats or aircraft. These items must be reported and registered by calling 703-792-6710 within 60 days of purchase or move into the County.

Property reported on this form is not subject to proration. Business personal property is taxed for the entire year, even if it is sold or moved out of the County after January 1st.

If you own no business tangible personal property, you must still file a return; please enter **"NONE"** in Schedules A, B, and C

Schedules A, B, and C

Report in the appropriate schedule the total purchase cost by year, all tangible property that is owned or being paid for by installment payments (including items acquired under a lease-purchase contract) located in Prince William County on January 1, 2025. All property must be reported, even if fully depreciated for accounting purposes. Please round amounts to the nearest dollar.

Total purchase cost is defined as the full capitalized original cost, including tax, freight, and installation. There is no provision in law that allows for the deduction of indebtedness against the reported cost for business tangible property.

Schedule A is used to report furniture, office equipment and fixtures, miscellaneous and incidental property, machinery and tools, and any other equipment not reported in Schedules B and C.

Miscellaneous and incidental property with an original cost of less than \$500 may be reported by estimating the total cost of all such property. If estimating the cost of miscellaneous and incidental equipment, please report the estimated cost in the year purchased. If the purchase year is not known, estimate the purchase year.

Schedule B is used to report earth-moving equipment and coin-operated laundry equipment.

Schedule C is used to report all computer hardware and peripheral equipment, such as personal computers, notebook computers, monitors, mainframe and midrange units, file servers, POS equipment, backup units, storage devices, modems, fax machines, photocopy machines, printers, scanners, network cards, and cables. Do not report application software.

Schedule D

Report all personal property leased or rented from others. Information used to complete this schedule should be obtained from a lease agreement(s). Report operating leases only. Capitalized leases should be reported on Schedule A, B, or C, depending on the type of property.

A copy of the IRS Schedule 4562 Depreciation and Amortization, if you complete this schedule. Miscellaneous and incidental equipment with an original cost of less than \$500 reported on Schedule A as an estimate of the total aggregate cost of such equipment does not have to be itemized.

Formula for Assessment
